## Work and Volunteer Experience

**Website Designer/Media Assistant** | Halton Industry Education Council (Burlington, ON) May 2017 - Aug 2017

- Created wireframe, site architecture and layout to improve usability for company's website update in a small team of three
- Designed brand assets to promote company's various social media, and refined existing material using Photoshop and Illustrator
- Created promotional videos using After Effects and Premiere used for social media marketing, and shown to over 1400 students and mentors at annual mentorship events

**Web Developer/Graphic Designer** | Media Rez Studios (Oakville, ON) July 2017 - Present

- Led end-to-end design process, and created mockups, wireframe and layout for fully responsive landing page
- Redesigned and improved existing web page using HTML5 & CSS3
- Designed marketing material on Photoshop

**Tech and Design Liaison** | StarterHacks Organizing Team (Waterloo, ON) Sept 2017 - Present

- Responsible for unifying the work between developers and designers to create a functional and intuitive product
- Advising designers on tech limitations and vice versa

## Projects

**MITimer | Sketch & InVision**

Ongoing

Web app prototype which will enable users to quickly create, save and load interval timers for studying, working out, and anything else that requires interval training

- Designed UX/UI components to make app intuitive and user friendly
- Currently in the process of implementing design solutions to make a fully functional web app

**Spy School | Java**

Ongoing

A multiplayer activity game in which players earn points by playing mini games

- Implemented a leaderboard using file handling (I/O) and sorting algorithms
- Applied knowledge of GUI to improve User Experience and designed images used within the game
- Applied error-trapping methods to ensure that the program runs smoothly, regardless of user input mistakes

## Education

**Candidate for Bachelor of Computer Science**

Specializing in Computational Fine Arts

Sept 2016 - Present  
University of Waterloo (ON)

## Skills

### Languages

- HTML5 & CSS3
- Java
- JavaScript
- C
